Superior University AI Assistant

Name: M.Saad Rumi

Roll No: SU92-BSAIM-F25-033

Section: BSAI-2A

Live Chatbot: https://chatflow-magic-40.lovable.app

Overview

The Superior University AI Assistant is an intelligent chatbot designed to provide instant and accurate information about the university. It helps students, applicants, and visitors access important details such as programs, faculty, admissions, and campus locations.

Features

1 - 24/7 Availability

2 - Instant AI responses

3 - User-friendly interface

4 - Student login system

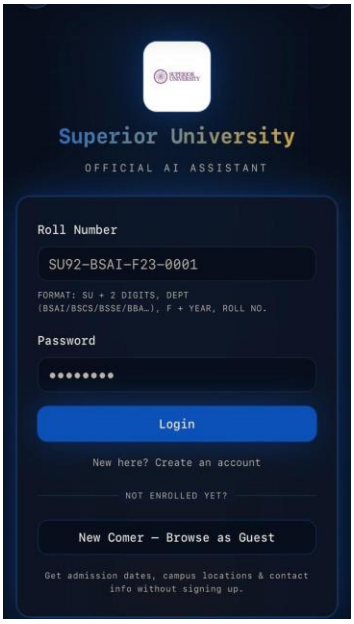

5 - Guest access

6 - Comprehensive university information

How It Works

The chatbot uses Natural Language Processing (NLP) to understand user queries and provide relevant responses. Users can log in or browse as a guest and interact with the assistant to get
